

CASE STUDY

How Pransform Inc. Smashed the BPO Operational Ceiling.

Moving from 60% industry-average automation to 90%+ Straight-Through Processing.

PAYBACK PERIOD

This Was the Ceiling at Pransform

7:14 AM

1,660 invoices hit the queue. Every format, every language, every currency.

8:30 AM

12 clerks begin manual keying. Every new CPA client requires a new hire.

1:15 PM

3-level human QC catches errors on page 40. Safe, but unscalable.

4:30 PM

50,000 docs/month. Team at capacity. Margins bleeding into payroll.

!

BPOs hit a '**human ceiling**' at 50k docs. AldaptIQ removes it.

Quality vs. Efficiency: The Dual Edge

Accuracy is about quality; STP is about profit. AldaptIQ delivers both.

Metric	Legacy	AldaptIQ
Straight-Through Processing	60% <i>(Requires Review)</i>	90%+ (No Human Touch)
Data Accuracy	~95% <i>(Human Error)</i>	99.5% (Verified AI)
Line-Item Math Validation	Manual	Auto-calculated
Multi-Client GL Mapping	Rules-based	AI-Learned Context
Scaling Costs	Linear <i>(More Staff)</i>	Software-Elastic

Now Flip the Numbers

Same 50,000 invoices. Two different business models.

"AIdaptIQ reduced our team from 12 to 3 while handling 50k docs — with higher accuracy than our manual process."

— PRANSFORM INC., BPO SERVING 300+ COMPANIES

The Exception Management Workflow

90%+ STP means your team only handles 'Red' flags.

HIGH ACCURACY MAKES HIGH STP POSSIBLE.

Send Us 500 Invoices.

We'll show you exactly where your current process is bleeding margin.

business@number7ai.com
